September 30th, October 28th, November 25th & December 30th
Light Refreshments & Tours Available

Our in-person monthly support meetings provide caregivers a forum to connect with one another by sharing common concerns, feelings and needs in a safe, confidential and non-judgmental atmosphere. Susan and Vickie understand the unique challenges faced by those caring for loved ones with Alzheimer's/Dementia. It's a place where you know that everyone in the group understands your caregiving journey because they are experiencing the same or similar circumstances. In this peer group, each participant is free to share their hardships but also offer potential solutions and suggestions to help fellow members with their own experiences.
